

## IT Maintenance Services

Based in West London, Compubits is a premier IT service provider. We focus on helping organisations reduce their IT support costs while increasing their access to fast, reliable technical support.

We provide economical, comprehensive technology services including support for your software applications, desktops, servers, network, and security systems. Compubits can help simplify the IT challenges of any organisation by offering honest and competent advice. From our extensive product range we can supply all your technology requirements from printer cartridges and toners to PCs, Notebooks, Servers and Interactive Teaching/Presentation Solutions. Compubits' friendly trained engineers can install and configure hardware and software to meet your needs.

**Our continuous efforts to offer the very best value and service, make us an IT market leader.**

Compubits offers a wide range of support options. We can lift the complications of IT support off your shoulders and take care of issues such as hardware & software compatibility. We can even just answer a question you may have. At Compubits we can offer telephone based support and we can also remotely monitor your IT system and address any support requirements swiftly.

**Our nationwide network of qualified engineers can promptly visit your site to diagnose and resolve all your IT and A/V support needs.**

Compubits' unique pricing structure for schools introduces a new era in IT support for the educational sector.

**Why not contact us for a free site audit and consultation today?**
